

Hibbing Public Utilities

Residential Home Energy Audit Program

Program Description

Hibbing Public Utilities wants to work with you to help reduce your energy use and assist you in becoming more energy efficient. We are now offering Home Energy Audits to our residential customers. Our partner, Frontier Energy, enlists professional, knowledgeable auditors who can provide a comprehensive plan to save energy (and money) that is customized for your home. If you want to save money on your energy bills, enjoy a cozier, weatherized home, or just want to help reduce energy waste, sign up for a Home Energy Audit today.

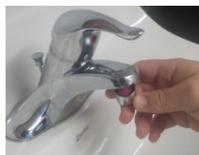

Home Energy Audit with Direct Install

- Perform a basic analysis of your utility bills
- Discuss any specific concerns
- Conduct a comprehensive whole house inspection
- Thermographic infrared camera inspection of envelope and steam equipment
- Analyze insulation levels throughout the home
- Develop customized solutions to address air leaks, ice dams and overall conditioned air loss
- Examine the age, efficiency and general condition of your mechanical systems
- Identify and discuss energy efficiency opportunities
- Report delivered to you with the recommendations discussed on site

Direct Install Options

While on site, the auditor will install up to three LED screw-in bulbs at the location of your choice. The direct install may also include up to two high efficiency shower heads, two faucet aerators, assess/make an adjustment to the water heater set point temperature, foam weather stripping around exterior doors and electrical outlet insulation gaskets for exterior wall outlets and switches.

Hibbing Public Utilities

Residential Home Energy Audit Program
