

# Watermain Capital Improvement Plan

## November 11, 2022

## Background

- Based on commission and HPU feedback from the initial draft WCIP
  - 5 year project priority list increased from \$11.50M to \$26.95M
    - Results in an increase of system replacement annually from 0.8% to 1.9%
- Additional Data included in Draft Document
  - 5 year project background
  - Tabulation of watermain system characteristics
  - Hydrant flushing reports

## Watermain Capital Improvement Plan Overview

Watermain Capital Improvements 2023 - 2027					
Project	2023	2024	2025	2026	2027
Stuntz Drive & Hematite Street	\$ 2,077,000.00	-	-	-	-
18th Avenue & 27th Street	\$ 2,248,000.00	-	-	-	-
Minnesota Street & 8th Avenue	\$ 2,617,000.00	-	-	-	-
3rd Avenue East (31st to 22nd)	-	\$ 4,523,000.00	-	-	-
5th Avenue East (31st to 24th)	-	-	\$ 3,405,000.00	-	-
First Avenue (4th to 1st - Kelly Lake)	-	-	\$ 2,119,000.00	-	-
West Wegner Road to 41st St.	-	-	-	\$ 5,264,000.00	-
41st Street (12th Ave E to 19th St E)	-	-	-	-	\$ 2,367,000.00
19th Avenue E (28th St to 34th St)	-	-	-	-	\$ 2,326,500.00
Total	\$ 6,942,000.00	\$ 4,523,000.00	\$ 5,524,000.00	\$ 5,264,000.00	\$ 4,693,500.00

Future Projects 2028 - 2032	
Old Highway 169	Existing 12" HDPE installed 2016, dead end main not in service.
Kitzville Loop (11th St to 1st St)	Existing 6" main 11th Street to RR Xing, 4" main RR Xing to 1st Street, inactive due to leaks.
Scranton Meter to Well House	Existing 12" main, Scranton well no longer in use.
19th Avenue East (34th St to 169)	Existing 8" main, high break frequency.
3rd Avenue (4th to 1st - Kelly Lake)	Existing 6" main installed 1918, high break frequency.
City-wide Hydrant Maintenance	Repair or replacement of broken or malfunctioning hydrants.

## 2023 Recommended Priority

# Stuntz Drive & Hematite Street

- Existing 4" Cast Iron Pipe
- Installation Date Unknown
- Breaks recorded: 10
- City paving project 2024

## 2023 Recommended Priority

### 18<sup>th</sup> Avenue East & 27<sup>th</sup> Street

- Existing 6" Cast Iron Pipe on 18<sup>th</sup> Avenue, 4" Cast Iron Pipe on 27<sup>th</sup> Street and 26<sup>th</sup> Street
- Installation date 1925
- Breaks recorded: 3
- Main frozen in spring 2022

## 2023 Recommended Priority

# Minnesota Street & 8<sup>th</sup> Avenue East

- Existing 6" Cast Iron Pipe
- Installation Date 1923
- Breaks recorded: 5
- City paving project 2025

## 2024 Project

### 3<sup>rd</sup> Avenue East (31<sup>st</sup> Street to 22<sup>nd</sup> Street)

- Existing 6" Cast Iron Pipe
- Installation date 1914 and 1917
- Breaks recorded: 5
- Water Service Operations and Maintenance
  - West side located under pavement
  - East side located between two large communications ducts

## 2025 Project

# 5<sup>th</sup> Avenue East (31<sup>st</sup> Street to 24<sup>th</sup> Street)

- Existing 6" Cast Iron Pipe
- Installation date 1919 and 1916
- Breaks recorded: 4

## 2025 Project

# First Avenue (1<sup>st</sup> Street to 4<sup>th</sup> Street) – Kelly Lake

- Existing 6" Cast Iron Pipe
- Installation date unknown
- Breaks recorded: 10

## 2026 Project

# West Wegener Road to 41<sup>st</sup> Street

- Existing 30" Ductile Iron Pipe
- Installation date 1967
- Breaks recorded: 1
- High risk asset due to high volume water losses spring 2022

## 2027 Project

# 41<sup>st</sup> Street (12<sup>th</sup> Avenue East to 19<sup>th</sup> Avenue East)

- Existing 8" Cast Iron Pipe
- Installation date unknown
- Breaks recorded: 7

## Overall Benefit

- How much of the system have we replaced in 5 years?
  - 9.7% system replacement
- Indirect Factors
  - Maintenance staff utilization
  - System operations
- What does the 10 year outlook include for replacement?
  - Evaluation of needs and goals
  - Budgetary considerations
  - Funding opportunities

WATERMAIN CAPITAL IMPROVEMENT PLAN  
2023 - 2027

DRAFT UPDATE  
11-15-22

Real People. Real Solutions.

WATERMAIN CAPITAL IMPROVEMENT PLAN  
2023 – 2027  
TABLE OF CONTENTS

I.	INTRODUCTION .....	3
II.	PROJECT IDENTIFICATION .....	3
III.	WATERMAIN CAPITAL IMPROVEMENT PLAN OVERVIEW .....	5
IV.	PROJECT BACKGROUND 2023 – 2027 .....	10
V.	REFERENCE DOCUMENTS .....	21

## I. INTRODUCTION

A Watermain Capital Improvement Plan(WCIP) is a flexible document based on long-range planning of major improvements that may be implemented over the next five years including future projects that reach to ten years. Flexibility is maintained through annual review and subsequent revision of the WCIP. Reviewing the plan annually allows Hibbing Public Utilities Commission to incorporate long-range project forecasting into the budgetary process in any given year. Annual review will assure that the program continues to be relevant and provides a necessary tool navigate change in demands as well as changing patterns in cost and financial resources.

The Watermain Capital Improvement Plan can help assure:

1. A systematic approach to planning and initiating capital projects affording the opportunity to plan the location, timing, and financing of necessary public improvements;
2. The development of a realistic program of capital spending within Hibbing Public Utilities Commission's projected fiscal capability to finance such projects, avoiding sudden change in tax levy or debt capacity;
3. The coordination of public and private improvement projects permitting adequate time for design and engineering to eliminate duplication of effort and expense;
4. The expenditure of public funds that is compatible with the long-term goals of the Commission;
5. That the public is informed of the proposed future projects and expenditures;
6. Aid in achieving federal and/or state participation by providing the necessary planning and lead time for a successful application while meeting the prerequisites for certain federal and state grants.

## II. PROJECT IDENTIFICATION

Projects identified for inclusion in the WCIP were the result of a coordinated effort between Hibbing Public Utilities staff and the City of Hibbing. Elements used in developing the WCIP are provided below.

### A. Hibbing Public Utilities Documentation

Documentation of the existing watermain distribution was provided by Hibbing Public Utilities. Hydrant flushing reports were also provided that indicated location and condition.

### B. Other Agency Planning Documents

Planning documents from the City of Hibbing and St. Louis County were also reviewed for potential impacts to the watermain distribution system. These documents include the City of Hibbing paving project schedule and the St. Louis County CIP.

Name:

Date:

Page:

C. Staff and Commission Input

Input from the Commission and staff were significant in guiding the development of the WCIP. Multiple meetings were conducted with Hibbing Public Utilities staff that included review of existing documentation and prioritizing infrastructure needs within the water distribution system.

D. Future Projects 2028 – 2032

The WCIP covers the years 2023 – 2027. During the development of this plan there were multiple projects identified that were prioritized beyond that timeframe. Additional projects have been identified and prioritized as future projects (See Figures 1 – 4). No cost estimates or other information was developed or prioritized as part of the WCIP.

### III. WCIP PROJECT OVERVIEW

Projects were identified and subsequently prioritized based on several criteria including break frequency, infrastructure age, hydrant functionality, and system optimization. These criteria represent issues directly related to the PUC distribution system operations and maintenance.

Watermain Capital Improvements 2023 - 2027					
Project	2023	2024	2025	2026	2027
Stuntz Drive & Hematite Street*	\$ 2,077,000.00	-	-	-	-
18th Avenue & 27th Street	\$ 2,248,000.00	-	-	-	-
Minnesota Street & 8th Avenue*	\$ 2,617,000.00	-	-	-	-
3rd Avenue East (31st to 22nd)	-	\$ 4,523,000.00	-	-	-
5th Avenue East (31st to 24th)	-	-	\$ 3,405,000.00	-	-
First Avenue (4th to 1st - Kelly Lake)	-	-	\$ 2,119,000.00	-	-
West Wegener Road to 41st St.	-	-	-	\$ 5,264,000.00	-
41st Street (12th Ave E to 19th St E)	-	-	-	-	\$ 2,367,000.00
19th Avenue E (28th St to 34th St)	-	-	-	-	\$ 2,326,500.00
Total	\$ 6,942,000.00	\$ 4,523,000.00	\$ 5,524,000.00	\$ 5,264,000.00	\$ 4,693,500.00

\*In coordination with State-Aid paving operations

Future Projects 2028 - 2032	
Old Highway 169	Existing 12" HDPE installed 2016, dead end main not in service.
Kitzville Loop (11th St to 1st St)	Existing 6" main 11th Street to RR Xing, 4" main RR Xing to 1st Street, inactive due to leaks.
Scranton Meter to Well House	Existing 12" main, Scranton well no longer in use.
19th Avenue East (34th St to 169)	Existing 8" main, high break frequency.
3rd Avenue (4th to 1st - Kelly Lake)	Existing 6" main installed 1918, high break frequency.
West Wegener Road to Townline	Existing 30" main, high volume water losses during breaks.
City-wide Hydrant Maintenance	Repair or replacement of broken or malfunctioning hydrants.

## IV. PROJECT BACKGROUND 2023 – 2027

### A. 2023

1. Stuntz Drive and Hematite Street Watermain Reconstruction
  - a) Existing 4" CIP
  - b) Installation date unknown
  - c) Breaks recorded: 10
  - d) City paving project 2024
2. 18<sup>th</sup> Avenue and 27<sup>th</sup> Street Watermain Reconstruction
  - a) Existing 6" CIP (18<sup>th</sup> Avenue), 4" CIP (27<sup>th</sup> Street, 26<sup>th</sup> Street)
  - b) Installation date 1925
  - c) Breaks recorded: 3
  - d) Main frozen spring 2022
3. Minnesota Street and 8<sup>th</sup> Avenue Watermain Reconstruction
  - a) Existing 6" CIP
  - b) Installation date 1923
  - c) Breaks recorded: 5
  - d) City paving project 2025

### B. 2024

1. 3<sup>rd</sup> Avenue East Watermain Reconstruction
  - a) Existing 6" CIP
  - b) Installation date 1914 and 1917
  - c) Breaks recorded: 5
  - d) Curb stops located under pavement on west side, located between fiber ducts on east side

### C. 2025

1. 5<sup>th</sup> Avenue East Watermain Reconstruction
  - a) Existing 6" CIP
  - b) Installation date 1919/1916
  - c) Breaks recorded: 4
2. First Avenue – Kelly Lake Watermain Reconstruction
  - a) Existing 6" CIP
  - b) Installation date unknown
  - c) Breaks recorded: 10

Name:

Date:

Page:

D. 2026

1. West Wegener Road Watermain Reconstruction
  - a) Existing 30" DIP
  - b) Installation date 1967
  - c) Breaks recorded: 1
  - d) High risk asset due to high volume water losses spring 2022

E. 2027

1. 41<sup>st</sup> Street Watermain Reconstruction
  - a) Existing 8" CIP
  - b) Installation date unknown
  - c) Breaks recorded: 3
2. 19<sup>th</sup> Avenue East Watermain Reconstruction
  - a) Existing 8" CIP
  - b) Installation date unknown
  - c) Breaks recorded: 7

## V. REFERENCE DOCUMENTATION

### i. Segment Table

Data in the table below is taken directly from HPU record documentation. Segments were then organized by known installation date. The length of each segment varies depending on the configuration of the watermain system. This table is intended to be used as a starting point in determining infrastructure needs. Developing specific project limits requires additional investigation.

Street Name	Size	Material	Age	Recorded Breaks	Location
