PUBLIC UTILITIES COMMISSION
HIBBING, MINNESOTA

GENERAL RATE PROVISIONS

Connection Charges

No charge shall be made for nominal overhead service connections, meters or installation. An additional charge shall be made for underground or abnormal service connections.

Billings

All bills shall be rendered monthly and shall be payable at net through the due date shown on the bill. Bills for service paid after the due date shall be subject to a late payment penalty of five (5) percent.

Delinquency and Disconnection of Service

If any bill is unpaid after due date and proper notification procedures of the customer have occurred in accordance with the Public Utilities Commission's rules and regulations for customer service, the customer shall be considered delinquent and service is subject to disconnection. A disconnect fee of $50.00 (+tax) and reconnect fee of $50.00 (+tax) per service will be assessed during regular business hours along with the past due amount. Outside of regular business hours, an additional $250.00 per employee will be charged along with the past due amount before service is restored.

Minnesota Sales and Use Tax

The current Minnesota Sales and Use Tax applicable to non-exempt service rendered shall be added to the monthly bills calculated under these rate schedules.

Interference

Uses of electric service which cause disturbances on the electrical distribution system and interference with service to other customers will not be allowed.

Adherence to Codes and Rules

All installations and equipment service must be in accordance with applicable Federal and State Codes and the Service Policy and rules of the Hibbing Public Utilities Commission. The Utility reserves the right to refuse service to customers not in compliance with this provision.

Effective Date - October 15, 1978

ELECTRIC SERVICE
RESIDENTIAL SERVICE RATES 1001, 1002, 1203

Applicability:
This rate is available, as shown, to all single-family residences, single flats, single apartments for lighting the operation of appliances, cooking, space heating, water heating and incidental power. It is also available for multiple units or for multiple family occupancy on the basis that the minimum bill and each energy block (5 apartments or more) of the rate shall be multiplied by the number of families or residences (whichever is greater) served through a single meter before computing the incremental energy block charges.

Character of Service:
Service furnished under this rate shall be restricted to single phase, alternating current, 120 - 240 Volt, three wire, 60 cycle service.

Rate:

Base Charge	$13.92*
Energy Charge	All Usage 14.84¢ per KWH per month

Base Charge:
The base charge of **$13.92* net per month** shall be the minimum monthly charge.

Senior Citizen Discount:
To qualify for a Senior Citizen's Discount, a consumer must be at least sixty-two (62) years of age. A **$1.50 per month discount** will be given to applicable customers.

Purchase Power Acquisition Adjustment Clause:
The above rates shall be adjusted in accordance with the Purchase Power Acquisition Adjustment Clause set forth in these Rates and Regulations.

Delayed Payment Charge:
Five percent (5%) of the above computed billing or minimum charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Terms and Conditions:
This rate is available on application and only to those consumers whose entire requirements are measured through one meter.

All electric service of the Electric Utility is rendered under and subject to the Rules and Regulations of the Hibbing Public Utilities Commission.

Effective Date October 15, 1978
First Revision February 1, 1980
...
Twentieth Revision July 1, 2017
Twenty-First Revision January 1, 2018

Twenty-Sixth Revision May 1, 2024
Twenty-Seventh Revision July 1st, 2025
Twenty-Eighth Revision September 1st, 2026

All Previous Revisions See Index

Purchase Power Acquisition Adjustment:

The stipulated rates shall be subject to a Purchased Power Acquisition Adjustment (PPAA) whenever the preceding month's variable components purchased energy divided by the net energy available for sale (corrected for line losses) in the preceding month exceeds the average 2014 amounts for the variable components. The 2014 average for these components was approximately $0.006/KWh.

The purpose of the PPAA is to recover the cost for purchased electric energy which exceeds the Base Cost per KWh sold as calculated with the costs and energy sales during 2014. Variable Purchased Power costs include the Midwest Area transmission charges, energy adjustments – Minnesota Power (MP) fuel costs, MP resale energy costs, and MP monthly true-ups. These amounts change month-to-month, thus cannot be forecasted to be included in the base electrical rates.

The amount of the PPAA per kilowatt-hour is applicable to all metered or estimated metered kilowatt-hours and is not subject to discount or minimum provisions of any rate schedule.

The PPAA will be reinstated January 1, 2016.

Effective date: October 15, 1978
First Revision: November 20, 1978
Seventh Revision: November 10, 2015
Eighth Revision: January 1, 2016

ELECTRIC SERVICE
Commercial - GENERAL SERVICE RATE 2001

Applicability:

This rate is available to general service consumers who are most economically served or desire service under this rate. This rate is available, as described herein, to the entire service area. This rate is available only to customers whose monthly kilowatt demands do not exceed 8 kilowatts through a single metering installation. Eligibility is determined on a quarterly basis with demand levels existing for seven of the preceding 12 months.

Character of Service:

120-240 volts single phase or 120-208, 240 volts, three wire, optional with the Public Utilities Commission single phase and three-phase where available, 60 cycle alternating current, for new consumers or installations. Secondary metering, only, will apply to this rate for new consumers or locations.

Rate:

All Usage 14.74¢ per KWH per month

Purchase Power Acquisition Adjustment Clause:

The above rates shall be adjusted in accordance with the Purchase Power Acquisition Adjustment Clause.

Base Monthly Charge:

Single Phase Service $14.86* per meter per month

Delayed Payment Charge:

Five percent (5%) of the above computed billing or minimum charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Terms and Conditions:

All electric service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule.

PUBLIC UTILITIES COMMISSION
HIBBING, MINNESOTA

ELECTRIC SERVICE
NET ENERGY RATE 2002

Applicability:

Applicable in all Rate Areas to cogenerators or small power producers rated at 40 kW or less. This rate is available to any customer taking single or three phase service under one of the Hibbing Public Utilities' standard electric rate schedules and who has entered into a contract with the Hibbing Public Utilities for the sale of electricity as a cogenerator or small power producer (Seller) as defined under State or Federal Law.

Net Energy Billing Rate:

Net Energy shall be the difference between all kWh's supplied by the Hibbing Public Utilities to the Seller and those generated by the Seller and fed back into the Hibbing Public Utilities' distribution system as surplus energy during the month. Seller shall be billed on Hibbing Public Utilities' standard applicable rate schedule based on the amount of Net Energy "to Seller" or based on zero kWh where the amount of Net Energy is "to Hibbing Public Utilities". If the amount of Net Energy is "to Hibbing Public Utilities", Seller shall be subject to the following Energy Credit:

Energy Credit:

Current Electrical Rate per kWh of Net Energy – All Customers

Delayed Payment Charge:

Five percent (5%) of the above computed billing or minimum charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Terms and Conditions:

All electric service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule.

Effective January 1, 2010

PUBLIC UTILITIES COMMISSION
HIBBING, MINNESOTA

Commercial - SMALL POWER SERVICE RATE 3001

Applicability:

1. This rate is available to all commercial and industrial establishments for lighting, heating, cooking, and power purposes. Eligibility is determined on a quarterly basis with demand levels existing for seven of the preceding 12 months.
2. For service delivered at one standard voltage through one installation of transformers when transformers are furnished by the Commission. Service will be metered at a point designated through one metering arrangement as established by the Public Utilities Commission.
3. This service is for consumers with monthly demand requirements between 8 kilowatts and 50 kilowatts of demand.

Character of Service:

Alternating current, 60-cycle, three-phase, at available primary and secondary voltages. Voltages furnished are optional with the Public Utilities Commission.

Rate:

Kilowatt Demand Charge .....$12.25 per KW per month

Energy Charge

All Usage:	13.51¢ per KWH per month
Base Charge	$22.61/month

Purchase Power Acquisition Adjustment Clause:

The above rates shall be adjusted in accordance with the Purchase Power Acquisition Adjustment Clause set forth in these Rates and Regulations.

Base Monthly Charge:

The Demand Charge plus the Energy Charge.

Reactive Demand Charge:

$0.27 for each KVAR of demand in excess of 50% of the kilowatt demand billed when the billing demand is usually over 50 kilowatts during a twelve (12) month period.

Determination of Billing Demand:

1) Determine the highest demand value in the preceding 11 months.
2) Compare the current demand meter read to the highest demand value in the preceding 11-months by dividing the current demand by the highest demand value in the preceding 11 months.
3) If the ratio if the current demand to highest demand is greater than or equal to 0.6, use the actual demand reading for calculating the bill.
4) If the ratio of the current demand to the highest demand is less than 0.6, use 0.6 times the highest demand value for the demand reading.

Commercial - SMALL POWER SERVICE RATE 3001 - Continued

Determination of Reactive Demand:

When the billing kilowatt demand is usually over 50 kilowatts (seven out of twelve months), the highest single integrated fifteen (15) minute measured KVAR demand occurring during the billing month as determined by continuous measurement by suitable instruments for reactive billing purposes.

Delayed Payment Charge:

Five (5) percent of the above computed billing or minimum charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Terms and Conditions:

All electric service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule.

PUBLIC UTILITIES COMMISSION
Hibbing, Minnesota

Commercial - POWER SERVICE RATE (2501)

Applicability:

1. This rate is available to all commercial and industrial establishments for lighting, heating, cooling and power purposes. Eligibility is determined on a quarterly basis with demand levels existing for seven of the preceding 12 months.
2. For service delivered at one standard voltage through one installation of transformers when transformers are furnished by the Public Utilities Commission. Service will be metered at a point designated by the Public Utilities Commission through one metering arrangement as established by the Commission.
3. This rate is available only to customers whose monthly demand requirement ranges from 50 kilowatts through 750 kilowatts of demand.

Character of Service:

Alternating, 60 cycle, three-phase at available primary and secondary voltages. Voltages furnished are optional with the Public Utilities Commission.

Rate:

KILOWATT DEMAND CHARGE

All KW of billing demand..... $13.66 per KW per month.

ENERGY CHARGE

All kilowatt-hours per month..... 13.51¢ per KWH

Base Charge $22.61/month

Purchase Power Acquisition Adjustment Clause:

The above rates shall be adjusted in accordance with the Purchase Power Acquisition Adjustment Clause.

Reactive Demand Charge:

$0.27 for each KVAR of demand in excess of 50% of the KW Billing Demand.

Determination of Billing Demand:

The maximum fifteen (15) minute measured kilowatt demand in the month as determined by continuous measurement by means of an integrating demand meter or indicator or at the Utility's option as the highest registration of a thermal demand meter or indicator. If necessary, the demand may be established under full load test. For determining the kilowatt demand charge, the kilowatt demand shall not be less than $13.66 per kilowatt for the largest kilowatt billing demand in the immediately preceding eleven (11) months.

Determination of Reactive Demand:

The highest single integrated fifteen (15) minute measured KVAR demand occurring during the billing month as determined by continuous measurement by suitable instruments.

Commercial - POWER SERVICE RATE 2501 - Continued

Base Monthly Charge:

The Billing Demand Charge plus any reactive demand charge, plus the charge for energy used, but in no case less than 60% of the largest kilowatt billing demand in the immediate preceding eleven (11) months plus the energy charge.

Delayed Payment Charge:

Five (5) percent of the above computed billing or minimum charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Discounts:

If the customer takes service at his property line and furnishes and maintains all equipment necessary to receive, transform and utilize the energy purchased at the supply voltage except for the Utility's metering equipment, the following deductions will be made from the billing demand charge or from the minimum monthly charge:

COMMERCIAL ELECTRIC DISCOUNTS

5203 - Secondary metering - owner furnishes and maintains their own transformers and primary.
DEMAND DEDUCTION ONLY

4702 - Primary metering - PUC owns and maintains transformers and primary.
2% DISCOUNT

4702 & 5203 - Primary metering - customer owns, furnishes, and maintains transformers and primary.
DEMAND DEDUCTION AND 2% DISCOUNT

Demand Deduction
$0.15 per kilowatt for 1st 500 KWD
$0.10 per kilowatt for all additional
Kilowatt demand in excess of the 1st 500 KWD. 2% Discount
2% of consumption in kilowatt hours will be deducted.

Terms and Conditions:

All electric service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule.

Commercial - LARGE POWER SERVICE RATE 3501

Applicability:

To commercial and industrial consumers for light and power purposes served through a single metering installation at one point, whose anticipated largest 15-minute integrated day demand peak is less than 1,500 kilowatts. All apparatus, material and equipment necessary for utilization of the purchased energy and located on the consumer's premises may be furnished and maintained by the consumer at the option of the Public Utilities Commission except for the Utility's metering equipment, which in any event shall be furnished by the Public Utilities Commission.

Character of Service:

Three phase, 60 cycle, alternating current at a nominal voltage, selected at the option of the Public Utilities Commission.

Rate:

KILOWATT DEMAND CHARGE

$8,161.35 for the first 750 KW of Billing Demand or less per month.

$11.95 per kilowatt for all additional KW of Billing Demand per month.

$44.21 monthly base charge.

ENERGY CHARGE

For the first 225,000 kilowatt hours or 300 kilowatt-hours per KW of Billing Demand, whichever is the greater – 11.55¢ per kilowatt hours per month.

Purchase Power Acquisition Adjustment Clause:

The above rates shall be adjusted in accordance with the Purchase Power Acquisition Adjustment Clause.

Reactive Demand Charge:

$0.27 for each KVAR of demand in excess of 50 percent of the KW Billing Demand.

Determination of Billing Demand:

The Billing Demand shall be the highest fifteen (15) minute integrated demand ascertained in kilowatts during the peak hours of the month (called Day-Demand). Peak hours are those hours not designated as Off-Peak hours. **Off-Peak hours shall be from 8:00 P.M. to 7:00 A.M. on week days, and all day on Saturdays, Sundays and holidays, and also such additional hours as may be designated by the Utility**. The demand in any event shall not be less than sixty (60) percent of the largest Day-Demand during the preceding eleven (11) months.

Determination of Reactive Demand:

The highest single integrated fifteen (15) minute measured KVAR demand occurring during the billing month as determined by continuous measurement by suitable instruments.

Commercial - LARGE POWER SERVICE RATE 3501 - Continued

Delayed Payment Charge:

Five (5) percent of the above computed billing or minimum charge if not paid by due date on bill or within fifteen (15) days from rendition of the bill.

Base Monthly Charge: $44.21

The minimum monthly bill shall be the sum of the kilowatt and Reactive Demand Charges and Energy Charge subject to applicable Purchase Power Acquisition Adjustment Clause.

Discounts:

If the customer takes service at his property line and furnishes and maintains all equipment necessary to receive, transform and utilize the energy purchased at the supply voltage, except for the Utility's metering equipment, the following deductions will be made from the billing demand charge:

COMMERCIAL ELECTRIC DISCOUNTS

5204 - Secondary metering - owner furnishes and maintains their own transformers and primary.
DEMAND DEDUCTION ONLY

4703 - Primary metering - PUC owns and maintains transformers and primary.
2% DISCOUNT

4703 & 5204 - Primary metering - customer owns, furnishes and maintains transformers and primary.
DEMAND DEDUCTION AND 2% DISCOUNT

Demand Deduction

$0.15 per kilowatt for 1st 500 KWD
$0.10 per kilowatt for all additional Kilowatt demand in excess of the 1st 500 KWD.

2% Discount

2% of consumption in kilowatt-hours will be deducted.

Terms and Conditions:

All electrical service of the Public Utilities Commission is rendered under and subject to the Rules and Regulations of the Public Utilities Commission but in no event shall the Service Rules override the service conditions described herein in this Rate Schedule.

Residential - HPUC Conservation Improvement Program (CIP)
Rate 5901

Applicability:

The Utility's CIP was implemented in January 2007. Each electrical account is billed $1/month for residential customers and .10% of usage per month for commercial accounts. The purpose of CIP is to increase energy efficiency and decrease per capita use of fossil fuels by 15% by the year 2015 in concert with the State of Minnesota's energy policy goals.

Rate:

$1.00 per month for each residential electrical account and .10% of usage per month for commercial accounts.

CIP Funds are used in the following activities:

1. Residential home energy audits

2. Commercial power grant rebates

3. Compact fluorescent lamp offering

Effective Date: January 1, 2007

INTERRUPTIBLE GAS (GSGI) SERVICE RATES 11001
WITH UTILITY RESERVE

Applicability:

This rate is available for gas service on an interruptible basis to any customer for commercial and industrial purposes whose boiler input is 1,000 cubic feet per hour or more providing the customer's premises are adjacent to the City's mains and that the capability of the City's system and the supply of gas available to it from its supplier is in excess of the requirements of its firm customers. The customer will agree in writing to install, own and maintain complete fuel standby facilities and sufficient standby fuel. Delivery of gas shall be subject to curtailment or interruption whenever required by the Public Utilities Commission for the protection of deliveries of firm gas users.

Rate:

Base Charge	$59.97 per month
All gas purchases	$0.74 per CCF

Base Charge:

The base monthly charge shall be **$59.97 per month.**

Delayed Payment Charge:

Five (5) percent of the above computed billing or base charge if not paid by due date on bill or within fifteen (15) days from the rendition of bill.

Overrun Charge:

Any unauthorized overrun of interruptible gas shall be charged at a rate of **$10.00 per MCF** in addition to the stipulated rate.

Terms and Conditions:

All gas service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule.

Purchased Gas Adjustment:

The above rates shall be adjusted in accordance with the Purchased Gas Adjustment Clause set forth in these Rates and Regulations.

INTERRUPTIBLE GAS SERVICE RATE 11002
WITHOUT UTILITY RESERVE

*** DISCONTINUED JANUARY 1, 2009 ***

Applicability:
This rate is available for gas service on an interruptible basis to any customer for commercial and industrial purposes whose gas input is 1,000 cubic feet per hour or more providing the customer's premises are adjacent to the City's mains and that the capability of the City's system and the supply of gas available to it from its supplier is in excess of the requirements of its firm customers. The Commission will agree to provide complete fuel standby facilities and sufficient standby fuel on a first-come/ first-serve basis, up to a maximum combined capacity of 20,000 cu. ft. per hour for all users in this rate classification. Delivery of gas shall be subject to curtailment or interruption whenever required by the Public Utilities Commission for the protection of deliveries of firm gas users.

Rate:

Base Charge	$78.61 per month
All interruptible gas purchases	$ .514 per CCF
All standby gas purchases	$ 1.57 per CCF

Base Charge:
The base monthly charge shall be **$78.61 per month.**

Delayed Payment Charge:
Five (5) percent of the above computed billing or base charge if not paid by due date on bill or within fifteen (15) days from the rendition of bill.

Standby Gas Purchases:
The Commission shall advise customers by phone contact whenever standby purchases shall go into effect. Standby purchases will be implemented by the Commission whenever necessary to protect deliveries to firm gas customers in addition to the stipulated rate.

Terms and Conditions:
All gas service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule. Application for this service rate shall be made by submitting a written request to the HPUC Secretary.

Purchased Gas Adjustment:

The above rates shall be adjusted in accordance with the Purchased Gas Adjustment Clause set forth in these Rates and Regulations.

Effective Date February 16, 1993
First Revision November 1, 1993
Sixth Revision January 1, 2006
Discontinued January 1, 2009

PUBLIC UTILITIES COMMISSION
HIBBING, MINNESOTA

PURCHASED GAS ADJUSTMENT
RATE 11501 - 11503

The stipulated rates shall be subject to a purchased gas adjustment whenever the actual cost of gas is above a calculated base cost. The base cost shall be calculated periodically using actual or budgeted costs divided by gas volumes purchased or budgeted.

All retail gas sales are subject to the application of a "Purchased Gas Adjustment" (PGA). Said adjustment shall be made when deemed appropriate by HPUC and shall be determined as follows:

Purchased and produced gas costs shall be calculated for each month or season, summer and winter, or as otherwise deemed appropriate by Hibbing PUC, to reflect changes in the cost of gas above the Base Cost. For these purposes, the "Cost of Gas" shall mean the total cost, including all transportation, demand, commodity, fuel and other supply related charges. Said calculations and adjustments shall be made and become effective with the first billing of each month, season or as HPUC otherwise deems necessary to fully recover additional gas supply costs. Costs for the subsequent period shall reflect the cost(s) as may be reasonably anticipated, plus or minus any corrective adjustments from the previous period.

WATER SERVICE
RESIDENTIAL - GENERAL SERVICE RATE 18001

Applicability:

This rate is available to all single-family residences, and commercial water customers for potable and process water use. It is also available for multiple units or for multiple family occupancy on the basis that the minimum bill and each energy block (5 apartments or more) of the rate shall be multiplied by the number of families or residences (whichever is greater) served through a single meter before computing the incremental energy block charges.

Rate:

Base Charge - $20.90

Commodity Charge – 1 - 6 Units $4.32 per unit (thousand gallons)
7- 12 Units $4.62 per unit (thousand gallons)
13 - 24 Units $4.93 per unit (thousand gallons)
Over 24 Units $5.27 per unit (thousand gallons)

Base Charges:

The base monthly charge is $20.90.

Delayed Payment Charge:

Five (5) percent of the above computed billing or base charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Terms and Conditions:

All water service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission, but in no event shall the Service Rules and Regulations override the service conditions described herein in this rate schedule.

WATER SERVICE
Wellhead Service RATE 18501

Applicability:

This rate is available on an interruptible basis to select customers for commercial and industrial process (non-potable) use. To qualify, customers must have existing infrastructure in place to draw water directly from a wellhead, providing that the Customer's premises are adjacent to a City wellhead.

Rate:

Base Charge - $20.90

Commodity Charge - $1.88 per thousand gallons

Base Charges:

The base monthly charge is $20.90.

Delayed Payment Charge:

Five (5) percent of the above computed billing or base charge if not paid by due date on bill or within fifteen (15) days from rendition of bill.

Terms and Conditions:

All water service of the Public Utilities Commission is rendered under and subject to the General Service Rules and Regulations of the Public Utilities Commission. Service provided under this wellhead service rate is interruptible and the Public Utilities reserves the absolute right to discontinue service at any time for any purpose it deems necessary.

WATER SERVICE
Service CONNECTION FEE RATE 18701

Applicability:

The Hibbing Public Utilities is required by Minnesota Legislation, to assess an annual fee for every water service connection. The calculated annual fee is $15.72 per service connection. The monies collected will be sent to the State of Minnesota quarterly. This is the annual fee the HPUC has been charging drinking water system customers since 2006.

Calculation:

(How it is calculated on your bill): $15.72 ÷12 = $1.31 per month

Effective Date 1993

STEAM FOSSIL FUEL ADJUSTMENT
RATE 16001-16005

The purpose of the Fossil Fuel Adjustment (FFA) is to recover fuel costs in excess of the Base Cost per Mlbs sold during the test year. If the monthly cost per Mlbs sold is less than the Base Cost, there is no FFA. If the monthly cost is greater than the Base Cost, an FFA would be charged.

The allocation of actual costs to the Steam Department is based on the amount of coal consumed in the production of steam. This cost is divided by the prior month steam sales to compute the cost of steam sold per Mlbs.

The initial Base Cost per Mlbs sold is based on a seasonal rolling average of Steam Department fuel cost allocated to the Heat Department divided by the steam sales during the test year plus 10 percent thereof.

The FFA shall be calculated under this clause unless service to a customer is covered by a contract with a different method of determining the FFA. The amount of FFA is applicable to all metered or estimated meter sales, except sales covered under contract, and is not subject to the maximum charge provision of the rate schedule.

2022 UNIT (BLOCK) BASE CHARGE CALCULATIONS

Meter blocking is a calculation procedure in our Utility Billing Application which is used to determine the proper revenue which is due when multiple tenants are serviced through a single meter. The need for this type of billing arises because our Utility Billing rate charts are set up for single service users. Since we have a number of accounts where multiple tenants are serviced through a single meter, the need for unit (block) billing arises.

The calculation procedure for unit (block) billing is explained here in steps. There are also a number of examples included.

UNIT BILLING

EXAMPLE 1:

ELECTRIC - BASE RESIDENTIAL UNITS = 60

ELECTRIC BASE CHARGE PER UNIT (BLOCK) $13.92

Unit (Block) Billing 60 x 13.92 = $835.20

EXAMPLE 2:

GAS – BASE RESIDENTIAL UNITS = 60

GAS BASE CHARGE PER UNIT (BLOCK) $11.28

GAS – RESIDENTIAL RATE

Unit (Block) Billing 60 x $11.28 = $676.80

EXAMPLE 3:

WATER – BASE RESIDENTIAL UNITS = 60

WATER BASE CHARGE PER UNIT (BLOCK) $20.90

Unit (Block) Billing 60 x 20.90 = $1254.00

EXAMPLE 4:

SEWER – BASE RESIDENTIAL UNITS = 60

SEWER BASE CHARGE PER UNIT (BLOCK) $17.17

Unit (Block) Billing 60 X 17.17 = $1,030.20
